Candidate Statement

I have been a teacher for 11 years. I lean towards traditional values, and I think boys and girls should use the bathroom that matches their original biological sex.

I also believe the teacher should teach, and so-called “student-centered learning” where the teacher is a facilitator and students “learn from each other” is false education.

For the past 5 years teachers quit in Arizona more than in any other state in the country. This is a big problem, but Yuma Union High School District does not seem to be paying attention to it. I think the governing board should investigate this problem in our district.

I will bring my 11 years of teaching experience to this position. I hope you vote for me.
Thank you.

Declaración del candidato

Yo fui profesor por 11 años, y mis valores son tradicionales. Yo creo que los niños y niñas deben estar en sus baños apropiados basados en su género biológico.

También, creo que los maestros deberían tener control en dar enseñanzas en sus clases. Darle el poder a los estudiantes de educarse entre ellos no funciona, es una forma incorrecta de educar — es una educación falsa.

En los últimos 5 años, demasiados maestros han renunciado y dejado sus puestos en Arizona comparado a otros estados del país. Este es un gran problema, pero el Distrito Escolar de Secundaria de Yuma Union no parece estar prestando atención. Creo que la junta directiva debería investigar este problema en nuestro distrito.

Aportaré mis 11 años de experiencia como docente a este puesto. Espero puedan votar por mí.
Gracias.

Brian Martin

Edward Thomas:

I am Edward C. Thomas, and I am seeking your vote for the Yuma Union High School District Governing Board. As a former soldier and retired Marine, I bring a steadfast commitment to serving our community and championing the needs of our parents, teachers, and students. My priority is to ensure a safe and nurturing environment where our students can thrive academically and personally. We face significant challenges, including new regulations under Title IX that mandate access for male students who identify as female to facilities traditionally designated for females, such as bathrooms and locker rooms, as well as participation in women's sports and organizations. It is essential that we come together to advocate for our children's rights and protections. My mission is clear: I will fight tirelessly to uphold the values that matter most to our families and ensure that Yuma Union High School District prioritizes the educational success and safety of all its students. Together, we can build a brighter future for our schools.
